

Wednesday 5 March 2025

Dear parents and carers

Tropical Cyclone Alfred is predicted to produce significant rain, strong winds and flash flooding in our community. This weather is expected to continue over the coming days.

I am writing to inform you that Palmview State Secondary College will be **closed tomorrow, Thursday 6 March and Friday 7 March** due to safety concerns and transport networks not operating.

Please keep your child at home on Thursday and Friday.

As part of our disaster management protocol, we follow the advice of emergency services. We always act in the interests of the safety of students, staff and the wider community. This decision is based on an assessment of the current conditions and risks associated with movement in and around our community.

We will continue to provide updates and information to our families via Compass emails, our school website (<https://palmviewssc.eq.edu.au/>), Facebook page regarding arrangements for Monday 10 March.

Student absences

Absences due to emergencies and natural disasters and when a school is closed, will not be recorded on a student's report card.

School re-opening

I will continue to liaise with the Department of Education and emergency services and I will keep you informed of any developments, including when we expect our school to re-open.

Up-to-date information on school closures is available from closures.qld.edu.au. Early childhood service closures are available on the [service and temporary closure information](#) website.

Monitoring the situation

Please continue to listen to our local ABC Radio service and monitor emergency services' social media accounts for updates and advice. Information about current weather conditions can be found on the Bureau of Meteorology website at www.bom.gov.au. If you need immediate help, call Triple Zero (000) and remember, if it's flooded, forget it.

It is incredibly important that you take time to look after yourselves and your families. I encourage you to access the information available for parents and students to [support health and wellbeing](#) during these difficult circumstances.

Thank you for your ongoing support and I trust that the impact of this event on our school will be minimal.

Regards

Barry Dittman
Principal
